Cork**

Siesta Cork Tile Co.

'Ambiente' coloured cork floor tiles - for natural comfort

- Cork floor tiles for all domestic type situations with transparent coloured hardwearing varnished surface.
- A wonderful floor to walk on - kind to your feet and legs.
- Kind on your ears - reduces footfall sound by about 16dB. Almost silent on solid floors.
- Gives a wonderful ambience of quiet and peace to any room - plus a more even temperature - why lose heat through your sub-floor.
- New larger size tiles - 600 x 300mm - more design potential, specially using two colours or 'Natural'.
- Cork is a natural eco-friendly product - cork trees last over 200 years. The cork bark is removed every 9 years and the tree regrows the bark - quite a unique tree.
- Wonderful range of timeless colours to match everyones furnishing styles.
- The satin sheen sealed surface is ideal for most domestic type areas but extra coats of varnish can easily be applied after laying to increase wearability.
- Ideal for all rooms of your house - bathroom, bedroom, study, playroom, music room or library; and kitchens with extra coats of sealant.
- Real style at reasonable prices and easily laid by DIY handy persons.
- Professional quality product. Tiles made from high grade cork by factory with ISO 9001 certificate. Tiles conform to required European Standards.

Tile Size: 600 x 300; thickness: 4.00mm
Colours: 10 No: plus 'Natural'
Finish: Satin acrylic varnish. Tile backing is heavy density cork.
Adhesives: We recommend only solid-setting types such as our own 'Cork-A-Bond and Laybond 48 Extra. These adhesives are applied to the subfloor and tiles laid into adhesive while still wet. Use V-notches 2.4mm x 4.8mm for these natural back cork tiles. Do not use flexible rubber or acrylic types of adhesive.

Packing: 10 tiles per pack = 1.8m² (4 packs per carton).

Extra heavy wear: In kitchens, hallways etc. apply additional coats of water based varnish after laying to give wearability and degree of gloss/matt shine required. We can supply a varnish with matching sheen level. Dries in half an hour.

Maintenance: Vacuum then damp mop clean. Floor dressings recommended for use on sealed cork can be used to good effect. Felt pads should be fitted on chair and table legs.

Fixing instructions: Given with each order. Written for DIY persons and flooring contractors. Read carefully before laying to ensure a floor to be proud of.

A large range of 'cork products' are available from Siesta Cork Tile Company which includes floor tiles - 'HD88' Acrylic sealed; 'Siesta' Hardwax finish; 'Corkcomfort' and 'Woodcomfort' with very heavy wear PVC surface; Rubbercork for additional sound insulation. Cork is a natural product and there may be slight variations between samples and tiles supplied. Check tiles acceptable in all respects before laying. The colours of the tile products illustrated in this brochure are as accurate as the limitations of the printing process will allow. Please refer to actual product samples before purchasing. Some fading of tiles may occur near sunlight but it is even and gradual.
